

EYE SERUM

(plated)TM

SKIN SCIENCE

Experience the Power of Platelet-Derived Exosomes with RenewosomeTM Technology

Key Ingredients:

Platelet-Derived Exosomes

Our highest concentration of exosomes to renew the skin's appearance

Coffee Arabica Extract

Reduces the appearance of puffiness and dark circles

Dual Seaweed Extract

Maintains skin youthfulness and reduces the effects of aging

Breakthrough Science. Brighter Eyes.

Years of visionary research from physician-scientists led to the ground-breaking discovery of platelet-derived exosomes as the ideal source for renewing the skin's appearance and defending against signs of aging.

RenewosomeTM Technology

94%

Participants reported **firmer skin** in the eye area

89%

Saw a **diminished** appearance of **puffiness**

78%

Noticed a reduction in the appearance of **fine lines and wrinkles**

Patient reported outcomes, ages 30-60, Fitzpatrick I-VI

This innovative serum leverages our platelet-derived exosomes to renew and refresh the appearance of the eyes.

Powered by Renewosome™ Technology

Clinically proven to support the production of collagen and elastin, our platelet-derived exosomes deliver a powerful combination of growth factors, peptides, and antioxidants for renewed looking skin.

Our nutrient rich formula helps with:

Fine Lines & Wrinkles	Crepey Skin
Puffiness	Dark Circles

Instructions:

Apply daily to a clean, dry face before other products

Gently press the green button to dispense a small amount, pointing away from your face

Dot metal tip on skin from under eye to brow and eyelids

Wipe applicator after each use

If clog in tip occurs, clear by dispensing product into hand. Avoid direct contact with eyes.
